

Accident book

UK Health and Safety legislation states that all accidents that happen at work must be recorded.

The current edition of the Accident Book BI 510 was issued in May 2003 by the Health and Safety Executive (HSE). This publication will allow you to comply with legal requirements to record accidents at work.. This new book will help organisations overcome any confusion about the requirements of both keeping personal information in confidence and enabling information to be disclosed for preventative purposes. This book also contains guidance on the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995 and the Health and Safety (First Aid) Regulations 1981.
