

## Rearview Lens

**Designed to provide a safer and clearer rear view picture on minibus or coach transport.**

Did you know it is a Construction & Use Regulation requirement that, when sat in the driver's seat, a driver should be able to see a person 1.3 metres tall standing behind the vehicle through the rear service doors?

A Rear View Lens can aid a driver's vision, can be applied to the rear window and is suitable for all vehicles. It is made of transparent PVC and utilizes the Fresnel principle, giving a wider view of people or objects that are to the rear of the vehicle, otherwise being in a "blind" area to the driver.

The CTA can provide the following Rearview Lens

<b>Description</b>	<b>Code</b>	<b>Price (inc VAT &amp; P&amp;P)</b>
Rearview Lens	<b>CTA</b>	<b>£25.45</b>
